SOURCE EVALUATIONS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE

1. A military zone is located in a wooded area about 18 kilometers west of Brno. The local inhabitants have been removed elsewhere and the abandoned houses are now used for military administration. The road through Kline, in the center of the zone, is closed to civilian traffic and used only for military vehicles. 25X1
2. The military zone is bounded on the north by the Bobrava River and the railroad line from Brno to Tropic, on the east by the railroad line from Strellice to Ivancice, on the south by the railroad line from Strellice to Ivancice and the Jihlava River, and on the west by the second-class road from Ivancice to Rosice.
3. Underground military stores are located at bench marks 450, 429, 449, and near 381; these consist of three stores in the shape of an S in which various types of artillery ammunition are kept. A railroad branch connects the stores with Ivancice. The stores are surrounded with barbed wire and are guarded by a platoon belonging to the 129th Infantry Regiment in Ivancice.
4. Between bench marks 429 and 498 there are underground anti-atomic stores in which atomic artillery projectiles and radio-controlled rockets are kept. These stores are guarded by a specialized unit from Brno.
5. All the stores in the military zone are administratively subordinate to the Prague military district. The atomic artillery projectiles come from the USSR. In case of need, a rocket launcher base will be constructed in this zone. A radar is located at bench mark 598.
6. Units of the 241st AAA Regiment in Brno, which is subordinate to the 83rd AAA Division in Brno, are responsible for the antiaircraft defense of the military zone.
7. [Redacted] sketch showing the location of the military zone and of the bench marks mentioned in the report. 25X1
